SIGNATURE TREATMENTS

2020 Recovery Massage

Calm the lingering anxiety. This mind & body treatment begins with a soothing pain cream specially formulated with a blend of inflammation relieving herbs including arnica, ginger, chamomile and high-potency CBD. A customized massage follows and includes focused work of the neck & shoulders using warm basalt stones.

Wine Country Scrub

Our all-natural sugar scrub with shea butter polishes the body and soothes the soul. An emollient rich grape seed oil application recaptures smooth and supple skin. The 80-minute service includes a thirty-minute Swedish massage.

Plumping Strawberry Facial

Strawberry is best considered a skincare super fruit. These naturally astringent beauties are rich in salicylic acid that gently exfoliate and remove impurities to brighten and shrink the appearance of pores. When combined with the plumping power of botanical hyaluronic acid, a natural substance found in the marshmallow plant – the result is a deeply hydrating and smoothing skin treatment. As a final step, a citrus & pineapple enzyme exfoliation refines the lip area, before an ultra-hydrating and plumping lip mask is applied.

Seasonal Experiences

From blooming lavender to aromatic rosemary and local olive oil, each season inspires new treatments. Our seasonal offerings bring the beauty of the outdoors into the treatment room where guests can unwind with a true Carmel Valley experience.

FACIAL CARE

The Spa at Bernardus is proud to partner with Éminence Organic Skincare which shares our core philosophy of fresh ingredients, sustainable farming and natural, potent beauty. Products are made from fresh fruits, vegetables, herbs, pulps, plants and exotic spices making them incredibly rich in nutrients and active compounds. Éminence skincare is not only the healthiest choice, but also the most effective, results-oriented collection available. By choosing pure organic ingredients, Éminence ensures their products are free of harsh chemicals, added parabens, petrolatum, mineral oils and propylene glycol. Each of their vitamin-dense ingredients are handpicked, hand prepared and combined with thermal hot spring water to create sustainable products that contain powerful healing and beautifying properties.

Bernardus Essential Facial

Our organic skincare line highlights active herbal extracts, fruit enzymes, seeds, and pulps to impart the regenerative and healing power that only nature can produce. This personalized treatment seeks to remedy specific skin care concerns utilizing the therapeutic and energizing properties of all natural exfoliants, peels, and rich hydrators. A customized blend of treatment and prevention, this gentle facial leaves you with balanced skin and a radiant complexion.

NuFACE® Transformation Facial

Coined as “pilates for the face” or the “non-surgical face lift,” this treatment offers instant gratification. The NuFACE® FDA-approved microcurrent device stimulates delicate facial muscles to reduce fine lines, wrinkles, and puffiness by lifting and toning the skin. Available as an 80-minute service only.

Gentleman's Facial

Look your best with this tailor-made treatment dedicated to the specific needs of a man's skin. A deep pore cleansing and exfoliation help prevent ingrown hairs and alleviate irritation from shaving. A pressure point facial massage, customized mask, and light conditioning moisturizer will leave you confident and ready to face the world. Please refrain from shaving at least four hours prior to your appointment.

MESSAGE THERAPIES
